

Cold Weather Priority Scheme

Sign up today if you are 75 or over

If you or someone in your household is 75 or over, tell us today and we will register you on the heating oil industry Cold Weather Priority (CWP) scheme.

Launched by trade association the Federation of Petroleum Suppliers (FPS), the Cold Weather Priority scheme is designed to identify heating oil customers, age 75+, who are most vulnerable to cold conditions.

This means that we, as your heating oil supplier, will take appropriate steps to prioritise your heating oil delivery, dependent on your need especially in times of fuel shortage or extreme cold weather.

Already committed to putting our heat-dependent customers first and as a member of the FPS, Kettlewell Fuels is wholeheartedly backing this initiative.

How to sign-up

To let us know that you are aged 75+ and would like to participate please provide us with the following information shown below:
